

## **Submission Process**

Authors are required to submit papers via registering themselves on the online jrap portal

<http://onlinejrap.neduet.edu.pk/>

The submitted papers are then desk reviewed and then sent off for peer reviews. Each paper is blind reviewed by at least two reviewers, one international and the other local reviewer. Based on the peer review comments received, the editors give feedback to the authors.

The entire process from submission to final publication takes somewhere between five to six months.
